

SHIVENDRA SONY

+91 8210877490 shivendrasony22@gmail.com linkedin.com/in/shivendra-sony-8232b5247 github.com/shivendrasony

Professional Summary

Motivated and detail-oriented Computer Science graduate with strong foundations in Python, SQL, backend development, data processing, and software engineering. Hands-on experience building REST APIs, database-driven applications, and data pipelines using modern development tools. Skilled in Django, Django REST Framework, FastAPI, PySpark, Apache Spark, Pandas, and relational databases. Strong understanding of OOPs, DBMS, data structures, and problem-solving, with the ability to quickly learn and adapt to new technologies.

Technical Skills

Programming: Python, SQL, JavaScript

Backend Frameworks: Django, Django REST Framework, FastAPI

API Development: REST APIs, JWT Authentication, OAuth (Basic), Pydantic, Swagger/OpenAPI (Basic)

Data Engineering: PySpark, Apache Spark, Data Processing, Data Warehouse Concepts

Databases & ORM: PostgreSQL, MySQL, SQLite, SQLAlchemy, Django ORM, RDBMS

Data Analysis & Visualization: Pandas, NumPy (Basic), Power BI (Basic), MS Excel

Tools & Practices: Git, GitHub, VS Code, Jupyter Notebook, Postman, Unit Testing

Core CS Concepts: OOPs, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Projects

GharDekho – Real Estate Backend

Feb 2026 – Mar 2026

Django, Django REST Framework, PostgreSQL, JWT

GitHub

- Designed and developed a REST API backend for a real estate platform using Django and Django REST Framework
- Implemented JWT-based authentication and role-based access for secure user sessions
- Built CRUD APIs for property listings with search, filtering, saved properties, and lead management
- Structured the codebase into modular Django apps (authentication, properties, leads, blog) for maintainability and scalability
- Added a site-visit scheduling workflow and integrated PostgreSQL/SQLite for persistent data storage

Blog App – REST API

Jul 2026 – Aug 2026

FastAPI, SQLAlchemy, PostgreSQL, Pydantic

GitHub

- Built a RESTful blog API using FastAPI with user registration, login, and JWT-based authentication
- Implemented CRUD operations for blog posts with request/response validation using Pydantic
- Used SQLAlchemy ORM with PostgreSQL for efficient database interaction and persistent data storage
- Organized backend into separate modules for authentication, database, models, schemas, and API routes

Experience

Data Science Intern – Alpha Intern 2.0 (Remote)

Apr 2024 – May 2024

House Price Prediction

GitHub

- Built an end-to-end Python data pipeline for house price prediction, covering data preprocessing and feature engineering on real-world datasets
- Developed and evaluated a Random Forest Regressor model, achieving an R2 score of 0.61 using MAE and MSE metrics
- Applied strong Python scripting and data-handling skills, directly transferable to backend data processing tasks

Education

Maharishi Markandeshwar University, Ambala

Aug 2022 – May 2026

B.Tech in Computer Science and Engineering – Data Science Specialization, CGPA: 7.8/10

BD College, Patna

2022

Class XII (PCM), 75.8%

DB Public School, Ara

2020

Class X, 73.6%

Certifications & Achievements

- Deloitte Australia Data Analytics Job Simulation – Forage (2025)
- Full Stack Development Summer Training – Xplore (May 26 – Jul 2, 2025)

Extracurricular Activities

- Smart India Hackathon 2024 – Internal Round Qualifier
- Vasudhaiva Kutumbakam Event – Winning Fine Arts Team Member
